(54) ILLEGAL INVASION PREVENTING SYSTEM

(57)Abstract:
PROBLEM TO BE SOLVED: To prevent the invasion by an illegal invader to a normal server and to provide an illegal invasion preventing system so that a failured illegal invasion may not be noticed by the invader.
SOLUTION: The illegal invasion preventing system comprises a decoy server 4 provided in combination with the normal server 3, and guides the illegal invasion to the server 3 to the server 4. The illegal invasion preventing system comprises an illegal invasion monitor 31 for judging whether a communication session established between the server 3 and an external terminal equipment 5 is caused by the illegal invasion or not, a communication session succeeding means 41 for succeeding the communication session judged as the illegal invasion from the server 3 to the server 4, and a router 2 for transferring a data packet to the normal server to the decoy server in the communication session judged as the illegal invasion.
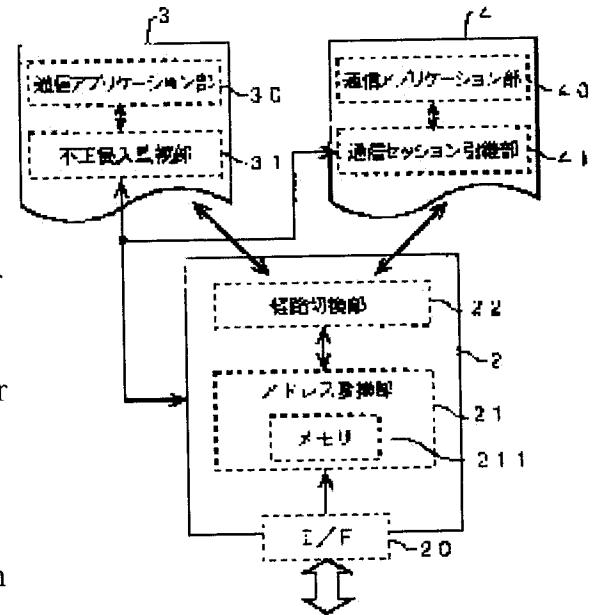

LEGAL STATUS

[Date of request for examination]   10.02.2003

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]   3687782

[Date of registration]   17.06.2005

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
